CAREER OBJECTIVE

Computer Science undergraduate graduating in 2027 with strong foundations in Java, Data Structures & Algorithms, Object-Oriented Programming and software development. Hands-on experience building Java and web applications, working with APIs, databases, Git, debugging and testing workflows. Strong problem-solving and analytical skills with experience developing, testing and validating software applications.

TECHNICAL SKILLS

Programming Languages:
Java, Python, JavaScript, C, SQL
Core Computer Science:
Data Structures & Algorithms, Object-Oriented Programming, Problem Solving, Debugging, Testing
Software Development:
REST APIs, Input Validation, Exception Handling, Functional Testing, Error Identification
Databases:
MySQL, Data Handling, Google Sheets API
Development Tools:
Git, GitHub, Postman, Docker, AWS
AI & Automation:
Google Gemini API, Playwright, n8n, Browser Automation

EDUCATION

SR University
Bachelor of Technology (B.Tech), Computer Science & Engineering
Expected Graduation: May 2027
CGPA: 8.49/10

PROJECT EXPERIENCE

AI Career Agent

- Developed an AI-powered automation platform for analyzing and processing internship opportunities.
- Integrated **Google Gemini API** to analyze job descriptions and classify opportunities based on defined criteria.
- Processed structured information using defined workflows, validation checks and error handling.
- Implemented debugging and quality checks to identify incomplete, inconsistent or incorrect information.
- Used **Google Sheets API** to organize and manage structured application data.
- Used GitHub for version control and project development.
- **GitHub:** https://github.com/RohanNamuthabaji/AI-Career-Agent

Enterprise Banking Management System

- Developed a **Java-based application** for managing accounts, transactions, deposits, withdrawals and fund transfers.
- Applied **Object-Oriented Programming and Collections Framework** to implement application functionality.
- Implemented input validation and **exception handling** for invalid inputs and transaction scenarios.
- Designed positive and negative test scenarios to identify application errors and inconsistencies.
- Debugged application workflows and improved reliability through systematic testing.
- **Tech Stack:** Java, OOP, Collections Framework, Git, GitHub
- **GitHub:** https://github.com/RohanNamuthabaji/BankingSystem

NutriAI – AI-Powered Diet Planner

- Developed a web-based application for generating personalized nutrition recommendations from user-provided information.
- Processed user inputs and implemented **BMI and TDEE calculations** for recommendation generation.
- Implemented input validation to identify incomplete or invalid information.
- Performed functional testing across multiple input and calculation scenarios.
- Identified and corrected errors during application testing and debugging.
- Designed the application with a focus on clear information presentation and usability.
- **Tech Stack:** HTML, CSS, JavaScript, Git, GitHub
- **GitHub:-** https://rohannamuthabaji.github.io/NutriAi/

INTERNSHIP EXPERIENCE

Java Full Stack Development Virtual Intern
AICTE | EduSkills | Aug 2026 – Oct 2026

- Completed an 8-week project-based internship focused on Java Full Stack Development, with hands-on exposure to Java, OOP, backend development, databases, REST APIs, testing and debugging.
- Developed practical understanding of software development workflows and building maintainable applications.

AI & Machine Learning Virtual Intern
Google for Developers | AICTE | EduSkills

- Completed a 10-week virtual internship covering basic AI/ML workflows, data preprocessing, model development, testing and evaluation.

DATA STRUCTURES & ALGORITHMS

- Solved **200+ DSA problems on LeetCode using Java**, demonstrating logical reasoning and problem-solving.
- Practiced implementing and analyzing solutions using fundamental Data Structures & Algorithms.
- Experienced in identifying errors, validating inputs and testing different solution scenarios.

CERTIFICATIONS

- AlgoUniversity – Advanced Data Structures & Algorithms
- Cisco – Introduction to Networks
- AWS Academy – Cloud Foundations
- AWS Academy – Cloud Security Foundations
- Cisco – Cybersecurity Essentials
